

"SALUTE WITH BELLS" INSTRUCTIONS

We are going to #thankahero with bells! Use this checklist to create the Unit "Salute with Bells" Award Storybook. This digital scrapbook should highlight your LEGION family as you work the National Security Program.

MAKING A BELL

- Print out a Bell Template or create your own (the templates are online on the National Security page).
- You can make your bell out of cardboard, posterboard, etc. ADD A BELL to make it ring.
- Color it all shades of PURPLE.
- Put a picture of your face in the middle of the bell.
- THEN...create a bell for your Unit and place it at your Post home where it can be visible.

WHAT TO DO WITH YOUR BELL

- Take your personal bell with you when you are working the National Security Program or when you are visiting another Unit/Post. You may want to keep the bell in your car.
- Take a picture of you, your Unit, or Legion Family RINGING your bell(s) as you are working the National Security program.
- Take a picture of another Unit's bell when you visit them (the more LEGION FAMILY in the picture the better!)
- Send them in troop boxes with
#thankahero #salutewithbells

CREATING YOUR STORYBOOK

- Once you have pictures of your members, Legion Family, other Units working the program, you'll create a "Storybook" of all of your bell ringing!
- Put all of your pictures in a digital photo album/presentation Write a caption or two about the picture. It doesn't have to be a lot but enough to describe how you were working the program and visiting with other Units!
- Decorate your "pages" however you want. Use many shades of purple!
- Please be neat and incorporate bells into the presentation
- Create a cover page/slide that includes the Unit Name, Unit Number, Unit National Committee Chairman (even though the whole unit works the program).
- Have fun and be creative! #salutewithbells & #thankahero

WHAT TO DO WITH YOUR STORYBOOK

Once the Unit's "storybook" is finished, please send it to me by email no later than May 1st, 2024.
Email: nationalsecurity@alaf1.org
